

Supported Living Services

We are incredibly passionate about our service and our dedicated team has many years of experience and knowledge to help you to make the right decisions about the type support that you may choose.

PRIVACY

We recognise that life as a service user, needing care and support in the community and the need to accept help with personal tasks are inherently invasive. Sometimes, the requirement of support may hinder the service users ability to enjoy the pleasure of being alone and undisturbed.

We therefore, strive for our clients to retain as much privacy in a safe manner as possible.

INDEPENDENCE

We believe that everyone should be empowered to live their lives as they choose; this includes fostering our service user's opportunities and helping them to fulfil a positive lifestyle while promoting participation in community and social awareness in all aspects of their support in a comfortable and secure way.

QUALITY CARE

We wish to provide the highest quality of care; to do this we give priority to a number of areas relating to the operation of the service and the support we provide. We are confident that we can meet the all the service user needs.

Kare Plus is a rapidly growing healthcare organisation who can tailor care and support services to meet the diverse needs of our customers

FOCUS ON SERVICE USERS

Our key philosophy for the service is for it to be driven by the needs, abilities and aspirations of our service users, not by what staff, management or any other group would desire. We recognise how easily this focus can slip and we will remain vigilant to ensure that the facilities, resources, policies, activities and support of the clients remain service user-led.

We aim to make it possible for our service users to live their lives as fully as possible.

SOCIAL ACTIVITIES, HOBBIES & LEISURE INTERESTS

We aim, as part of the assessment process, to encourage potential service users to share with us as much information as possible about their social, cultural and leisure interests, as a basis for helping them during their time using our services.

“Margaret Garry’s sister and myself, Terry his brother - in - law are more than happy with the care provided for Garry by Kare Plus and there staff. Garry is always happy and of smart appearance when we visit and the staff are very helpful and friendly. We feel reassured that he is happy and well cared for.”
